

MID-SOUTH SUBSTANCE ABUSE COMMISSION

ANCILLARY SERVICES FOR WOMEN & FAMILIES CASE MANAGEMENT

The following is a description of what ancillary services the Commission will reimburse. While developing a plan as to the ancillary services your program will provide, **keep in mind mandated services must be provided to clients and available throughout the entire fiscal year.**

▶ The **mandated** services for Women & Families Case Management money are the following: **Childcare, Transportation and Primary health/physicals for the woman and/or her children.**

The expectation regarding Primary health/physicals for the client and her children is for the women's case manager to facilitate accessing appropriate services.

For most women, either her Medicaid or local health department funds should cover most of this cost. If you have a woman who cannot access any other resources to pay for her physical, ancillary services funds may be used.

Women's Primary Health/Physical (Maximum allowable is \$90.00)

If a child does not have Medicaid, other insurance and/or is not eligible for MIChild funds, ancillary services funds may be used.

Pediatric Primary Health/Physical (Maximum allowable is \$70.00)

▶ Mid-South has determined the following to be **allowable** services for reimbursement:

Meals/snacks	(Maximum allowable is \$6.00 per meal)
Dental for Women	(Maximum allowable is \$90.00)
Dental for Children	(Maximum allowable is \$70.00)
Prescription Drug Co-pay Coverage	(Maximum allowable is \$30.00 co-pay)

▶ Mid-South has determined the following to be a **limited allowable** service for reimbursement within certain guidelines: **Drug Testing/Screening**

Mid-South Drug Testing/Screening Guidelines

Each provider who chooses to utilize their ancillary services money for drug testing/screening **must have on file with Mid-South a plan** regarding under what circumstances a client will be drug tested, what are the consequences for positive drug screens, and how random screens are determined.

Mid-South Drug Testing/Screening Expectations

1. 5 Panel Drug Test/Screen and random breathalyzer (10 panel screen used when other prescription drugs are suspected)
2. Random in nature with a maximum of 2 per month that will be reimbursed by Mid-South (collection may happen on a more frequent basis for therapeutic and monitoring purposes without it being actually tested)
3. Limited in use:
 - 3a. not all women funded for case management will be automatically drug tested
 - 3b. ancillary services funds utilized when all other sources of payment have been exhausted, i.e., courts, probation, FIA, Child Welfare, etc.

▶ Supporting documentation for the ancillary services is to be kept on site in the client file, available for review during the annual financial and Quality Assurance/Women's Case Management site review.
